

Comparison between versions†

	Version A	Version B	Version C	Version D	Version E
Discrepancy	Not applicable to southern part of HK Island	Can be used all over HK.			
	It follows the incorrect time of the station even though it is not correct		Won't be wrong if one station is incorrect, when there are some other stations sending the right time.		
	/	/	There is a chance to have some seconds, or even some minutes off when time signal is not received.	Fixed.	
	/	/	/	There is 1 component needed to be soldered manually	Fixed.
Tolerance @25°C	< 3 sec		< 2 sec		< 1 sec
New features	/	/	Manual Adjust mode		
	/	/	/	Power saving mode Battery life > 1 yr.	
Sensitivity			Increased cover area	The receiving area is increased to cover the FuTian district in ShenZhen.	
Battery life ※	9 months		7 months	8 months	

- ※ Due to more retry when the station is weak, more power is consumed, the battery life will be shorter.
- † Version number is at the end of the model number, e.g. HT14BK6E is 14" , Black , the 6th model, **version E**.
